

# 7 Essential Factors

## Essential Factors Assessment Worksheet

This worksheet is designed to assist organizations in determining the seating solution best suited for a particular application. Whether the decision requires 25 chairs for a non-profit community center, or 1000+ chairs for a church, these seven (7) essential factors, identified below, will all factor into the decision making process. The only variable(s) for each organization to decide and to assess for itself will be the degree or percentage to which any one of the factors is valued (or weighed).

	Record of Comments/Discussions/Rationale	Weighted Percentage
1. Cost		
2. Comfort		
3. Storage Space Required		
4. Durability		
5. Aesthetics		
6. Handling		
7. Functionality		

### Comments

Comments/feedback as to the usefulness/suitability of this sheet as a working tool for decision making is welcomed.
