### Things to consider, when buying.

#### Where was your seat measured?

We measure ONLY the part that you sit on. Others may not.

#### What's holding your chair together?

Using StaFast "Ultimate" T-nuts gives a metal to metal connection for superior holding power.

#### Who's standing behind your chairs?

The Jubilee comes with a 15 year warranty on the frame!

#### What's the comfort level after 20 minutes?

The Jubilee gives you 1 1/2" of foam on the back, for long term comfort.

#### Out of sight, Really out of mind?

Plywood vs MDF. All Jubilee chairs come with plywood seat & back, not MDF.

#### What's my total investment?

NO ASSEMBLY REQUIRED. Other manufacturers will give you a great price, but you supply the labor.
